

Virginia Department of Emergency Management 2017 Fall Forum

The Fall Forum is an annual opportunity for local emergency managers to obtain current information on state and federal policy and procedures, to learn about useful tools for emergency managers.

Attendees also have a unique opportunity to provide feedback as stakeholders in Virginia's emergency management programs and initiatives.

The Emergency Management Fall Forum is a collaboration between the Virginia Department of Emergency Management (VDEM) and the Virginia Emergency Management Association (VEMA). Attendance of either the Fall Forum or VEMA’s annual spring symposium is a requirement for jurisdictions receiving EMPG funding, though jurisdictions may elect to attend both.

Fall Forum theme this year is “Recovery 2.0: Instituting Technology.”

Forum Topics include:

- sUAS in Recovery
- Recent Flooding and National Weather Service Technology
- FirstNet Update
- Situational Awareness
- Resilience and Recovery
- PA and Mitigation
- Disaster Response Teams

Participants can register in the Commonwealth of Virginia Learning Center at the following link. [VDEM Fall Forum](#)
